Hi Dr. Wheeler,

At the end of each academic year, I take time to reflect on ways that I have grown over that time both academically and personally. After spending both the fall and spring in your classes, much of my growth is credited to you.

Through my management courses, I have learned many tangible skills--such as contract evaluation--but also learned so much about my self--my leadership style, the way I approach problems, and managing group dynamics.

Both professionally and in my personally life, I will never forget the ways you have helped me grow. Thank you for all that you have done, from providing valuable feedback to serving as a great example for the type of leader I would like to be. Again, thank you, Dr. Wheeler!

Have a great summer,
Fallon Chiasson

Dear Dr. Wheeler,

Hello, my name is Monica Allen, and I just graduated from UNT with a Master's of Library Science and am now looking for a job. During my time at UNT, I took three management courses from you (INFO 5300, 5303, and 5320). I really enjoyed these classes and thought that I learned a lot. So I was wondering if I could use you as a reference as I apply for positions. If you could let me know that would be great.

Thanks,
Monica Allen

Dr. Wheeler,

I am applying for the open music librarian position at UNT. Would it be allright to use you as a reference? I recently took the following courses from you and received an A in all three: Public Libraries, Library Management, Finance & Human Resource Management of Libraries.

How exciting it would be to combine my newly acquired MLS with my undergraduate degree in Music (at my Alma Mater to boot)!

Leah Flippin

Hello Dr. Wheeler,

I really enjoyed your INFO 5303 and INFO 5320 classes, which I took and made A's in during the spring 2020 semester, and was hoping you would agree to be one of my references as I apply for jobs.

In particular, I am preparing to apply for a position that involves significant management/supervisory duties, including creating workflows, hiring and training student assistants, and supervising a small library department. I feel that I developed a lot of relevant knowledge and skills through your courses, particularly INFO 5303. (INFO 5320 is not as relevant since the job is in an academic library).

Please let me know if you would be comfortable with me listing you as one of my references.

Thank you,
Sarah Diaz
